You vote for San Juan Water District If you live in:

**Citrus Heights, Fair Oaks, Orangevale, East-Roseville,
Granite Bay, & City of Folsom (N. of river)**

Equal Representation: San Juan Water District covers a large portion of Sacramento County, and a smaller portion of Placer County (Granite Bay Area). However, 4 of the 5 San Juan Board members live in Granite Bay. Granite Bay only makes up **13%** of San Juan’s total population, but they have controlled our water district for many years. They borrow money and put us in debt, and continually raise our wholesale (and retail) water rates. This is not right! Mitch & Mike are the only candidates who **Do Not** live in Granite Bay. Help us FIX San Juan. Vote **Mitch & Mike** for equal representation!

Manage The Merger: The San-Juan Board is again pushing an outside merger with the Sac-Suburban-Water-District. This is a big threat to any San-Juan resident. Sac-Suburban needs to pay off approximately \$100M of debt, has a need for (our) water treatment facilities, and would like more secure (our) water rights. If merged, Sac Suburban would become the dominant voting population within San Juan. There is a risk of being out voted, losing control of our water district, and spreading our water rights way too thin. Help us protect our water rights, our wallets, our water treatment facilities, and our voting strength. Vote **Mitch & Mike** to manage the merger.

Mitch Dion was raised on San Juan Water, he grew up in the district, graduated from San Juan High and served in the USMC for 32 years (active & reserves). As the Utility Manager for the City of Woodland and as General Manager of several agencies throughout California including both public and private sector enterprises, Mitch has served in leadership roles in the region and on statewide policy initiatives. He demonstrated his conservative fiscal perspective challenging big water interests in published OpEds exposing irresponsible initiatives & bond issues. Mitch and his wife Peri, returned home to enjoy our unique quality of life along the American River.

Vote Mitch Dion to FIX San Juan Water District!

Mike McRae has raised his family and lived in Fair Oaks for over 24 years. Mike has served on the Fair Oaks Water Board since 2012, and was Board President in 2014 & 2019. Mike (and other Fair Oaks Board members & Management) have taken the Fair Oaks Water District to zero-debt and some of the lowest water rates in the region! Mike was a vocal opponent to the first Sac Suburban merger attempt back in 2015, and is ready to defend our interests again. Mike is an Electrical Engineer for a local utility and understands how a services district should be run.

Vote Mike McRae to FIX San Juan Water District!
